

DIM10A

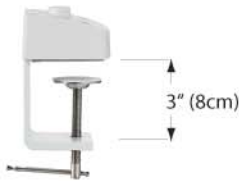

ILLUMINATED FLUORESCENT MAGNIFIER

- 5" diameter optical quality 3 diopter lens magnifies 1.75X
- 22W circline fluorescent bulb (included)
- Bulb cover, for safety
- Includes industrial duty clamp-on bracket "AA"
- Instant on/off switch
- Spring covers
- Heavy-duty spring balanced arms, extend 42" (107 cm)
- Magnification can be increased by purchasing replacement lens or clip-on lens.

AVAILABLE in WHITE only

OPTIONAL BRACKETS and BASES for MAGNIFIERS

"AA" BRACKET
Heavy-duty industrial clamp-on bracket
Will not slip, slide or break

"B" BRACKET
Wall mounting bracket

"C" BRACKET
Permanent table mounting bracket

"E" BASE
Heavy weighted table base
Weight 25lbs

OPTIONAL GLASS LENSES

"8D" LENS
8 diopter clip-on lens
Clips below existing lens
Increases magnification by 3X

"5D" LENS
5 diopter replacement lens
Magnifies 2.25X

"3D" LENS
3 diopter lens
Magnifies 1.75X

When magnification is increased the focal length decreases. This means that working room under lens is diminished. For example:
a 3D working room is 13" (33cm)
at 11D working room is 2" (5cm)

#34 BUSHING

Aluminum bushing
Designed for surface mounting any task light
Requires .75" hole for tight fit
Can be countersunk

ALL BRACKETS and BASES AVAILABLE in WHITE ONLY
