

PLED-04

Description:

- The PLED-04 series is a stylish Cree, dimmable LED (COB) puck light for indoor use in cabinets, under cabinets, furniture, shelving, display cases and accent lighting.
- Using the chip on board (COB) technology eliminates visible dots in the light output.
- This product produces up to 314 lumens of light while consuming only 4.0 watts of power.
- Using the appropriate wattage 24V constant voltage driver (purchased separately) and a Lutron MAELV-600 or Legrand ADTH700 dimmer (purchased separately) will allow dimming to 10% of maximum output.
- The lights are available in a trio of finish options and one colour temperature. Custom finishes and different colour temperatures can be requested for projects requiring minimum 300 pieces.

Data:

Output voltage 24V DC
 Input power 4W
 Output current 159mA
 Frequency 60Hz
 Min starting temp.-20°C(-4°F)
 CRI 80+
 CCT 3000°K*
 Lumens..... 314Lm

Flux out : 106.2 lm
